## Projects

### CrossPay - Crypto Wallet Application Oct'24

*Decentralized cryptocurrency wallet for Ethereum transactions*

- Developed secure cryptocurrency wallet using Solidity smart contracts and Web3.js for Ethereum blockchain integration, enabling ETH transactions with enhanced security.
- Implemented MetaMask integration and responsive frontend using React.js with Material-UI for optimal user experience.
- Utilized Hardhat framework for smart contract development and testing, ensuring robust transaction handling and gas optimization.

### AirNav - Air Gesture PC Control System Sep'24

- Created innovative gesture-based PC control system using MediaPipe for hand tracking and OpenCV for computer vision, achieving 95% gesture recognition accuracy.
- Integrated PyAutoGUI for system automation, enabling mouse movements, clicks, and keyboard inputs through hand gestures.
- Developed custom gesture mapping algorithms with multi-threading for smooth real-time performance with minimal latency.

### AI Voice Assistant for Insurance Company Nov'24

- Built intelligent voice assistant for insurance operations using VAPI.ai API, providing NLP capabilities for customer query handling and policy management.
- Implemented speech-to-text and text-to-speech functionality with 98% accuracy, integrated with CRM systems for real-time data retrieval.
- Designed conversational flows using Node.js backend and deployed on AWS EC2 for scalable, responsive customer service automation.

## Education

### Anurag University, Hyderabad 2023 - 2027

- B.Tech in Artificial Intelligence and Machine Learning | CGPA: 7.65
- Relevant Coursework: Data Structures & Algorithms, Machine Learning, Deep Learning, Blockchain Technology, Computer Vision, Natural Language Processing

### Kendriya Vidyalaya Hyderabad, India 2022 - 2023

- CBSE (Class XII), Aggregate: 72%

### Kendriya Vidyalaya Hyderabad, India 2020 - 2021

- CBSE (Class X), Aggregate: 82.5%

## Skills

**Programming Languages:** C++, C, Java, Python, JavaScript, Solidity

**Machine Learning & AI:** Regression, Classification, Neural Networks, NLP, Deep Learning, Computer Vision

**Web Development:** Node.js, Express.js, React, MongoDB, MySQL, Web3.js

**Blockchain & Tools:** Smart Contracts, MetaMask, AWS, Git, MediaPipe, OpenCV

## Academic and Extracurricular Achievements

- 1st Prize Winner - HackAttack 2024 Hackathon at Anurag University (Blockchain Domain)**  
Developed CrossPay cryptocurrency wallet, demonstrating excellence in blockchain development and smart contract implementation.
- 1st Prize Winner - Visionova 2025 at Anurag University (AI/ML Domain)**  
Created AirNav gesture-based PC control system, showcasing expertise in computer vision and machine learning technologies.
- Technical Leadership**  
Led multiple project teams in university hackathons and coding competitions.
